I have already been uploading everyone's comment onto PREmis. You can either check there or I can e-mail you specific files you're interested in. No one segregated their comments into Appendix-specific comments, so you'll have to wade through it all.

Warning: Eugenia - the CPG comments are harsh - so if you choose to read them, I'd like you to take a deep breath and focus on the technical merits of the comments - ignore the wording.

Subject my comments on the FFS Appendix G Cap erosion and flood modeling

This is a nice Appendix, I only have a few minor comments. Alice let me know when you receive/upload the PRPs comments on this appendix and Appendix D EMBM.

thx,

e
